

# IN35WEP/IN37EP

These classroom room projectors are the first to integrate BrilliantColor™ with such impressive power.

## Brilliant in the Classroom

The revolutionary Learn Big IN35WEP and IN37EP digital multimedia DLP® projectors featuring the latest BrilliantColor™ technology for true-to-life color reproduction with unrivaled accuracy. Unlike LCD projectors which use just 3 primary colors to produce the image, the IN35WEP & IN37EP uses up to six separate colors to provide more stunning, vibrant colors on the screen. With 2500 and 3000 lumens respectively and a wireless-ready architecture these two projectors offer a new level of performance and features.

For the attentive student, the IN35WEP offers higher native resolution than 720p HD display devices while the IN37EP has ample power for large spaces with lots of ambient light. Also, with 30 degrees of both Horizontal and Vertical keystone control these projectors will make a perfect square (or rectangular) image on your screen no matter how challenging your install project. With the IN35WEP & IN37EP you get the dependability and long life of DLP®, with the true colors and clarity previously missing.

## Long Term Performers

These two projectors feature the BrilliantColor™ chipset from DLP®. Users and audience members are now free from fading colors and decreased contrast, while all LCD-based projector systems fall victim to this costly “battle against the clock.” Over time InFocus DLP® projectors yield a lower expense and continually outperform LCD projectors. The IN35WEP & IN37EP implement InFocus 24x7 operation standard and utilize a new 3500 hour high-output lamp. Internal components are kept cool, controlled and isolated from the elements, allowing you to project 24-hours a day without worry. Designed for high-resolution video and data sources these innovative projectors will showcase every multimedia presentation as you’ve never witnessed – until today.

## Wider Views

The IN35WEP features the very latest DLP® technology, including BrilliantColor™ and Wide-XGA resolution. WXGA is the standard of widescreen laptops, so it will duplicate your computer image with great colors and 100% pixel accuracy. Just as importantly, this wide image provides more viewing area without a taller picture which your students may not be able to point out or otherwise would crane their necks to see clearly.

## Optional Accessories

Projection Screens (4:3, 16:10 & 16:9)  
High Performance Cables & Adaptors  
LiteShow II Wireless Adaptor  
Advanced Remote Control (HW-COMMANDER)  
Briefcase and Rollercase  
Ceiling Mount (SP-CEIL-UNIV)  
Security Locks  
Replacement Lamp (SP-LAMP-026)

## Warranty

If you're happy, InFocus is happy. That's why every InFocus projector comes with a standard 5-year warranty on the DLP® imager, a 3-year limited factory warranty (including parts and labor) and a 1-year limited lamp-replacement warranty. Extended product & lamp warranty programs are also available.
