The Lamp Hours timer in the Projector Info menu counts the number of hours the lamp has been in use. Twenty hours before the lamp life expires, the message “Replace Lamp” will appear on the screen at startup.

1. Turn off the projector and unplug the power cord.
2. Wait 60 minutes to allow the projector and lamp to cool thoroughly.
3. Remove the lamp door by:
   a. releasing the top latches by sliding the release buttons toward the rear of the projector,
   b. sliding the top front cover towards the direction of the lens,
   c. removing the 5 screws and lifting the lamp door off.
4. Loosen the 2 captive screws that attach the first lamp housing to the projector. Carefully remove the lamp housing. Dispose of the lamps in an environmentally proper manner in accordance with local disposal laws.
5. Install the new lamp housings and tighten the 2 screws.
6. Replace the lamp door by securing the 5 screws.
7. Replace the top front cover by sliding it back into place.
8. Plug in the power cord and press the Power button to turn on the projector.
9. To reset the lamp hour timer, navigate to the Status and Service menu and select Reset Lamp Hours.

**IMPORTANT**: SP-LAMP-056 only replaces the lamp marked Lamp #2. To replace the lamp marked Lamp #1, you need SP-LAMP-055.

---

**NOTES:**
Use the InFocus lamp module designed for this projector. You can order new lamps from www.infocus.com (in select areas), your retailer or your dealer. Only genuine InFocus lamps are tested for use in this projector. Use of non InFocus lamps may cause electrical shock and fire, and may void the projector warranty. InFocus is not liable for the performance, safety or certification of any other lamps.

**WARNINGS:**
- The projector uses a high-pressure mercury glass lamp. The lamp may fail prematurely, or it may rupture with a popping sound if jolted, scratched, or handled while hot. The risk of lamp failure or rupture also increases as the lamp age increases; please replace the lamp when you see the “Replace Lamp” message.
- To avoid burns, allow the projector to cool for at least 60 minutes before you replace the lamp.
- Unplug the power cord before replacing the lamp.
- Do not drop the lamp module. The glass may shatter and cause injury.
- Do not touch the glass surface of the lamp module. Fingerprints can obscure projection sharpness and may cause the glass to shatter.
- Be extremely careful when removing the lamp housing. In the unlikely event that the lamp ruptures, small glass fragments may be generated. The lamp module is designed to contain most of these fragments, but use caution when removing it.
- Before replacing a ruptured lamp, clean the lamp compartment and dispose of cleaning materials. Wash hands after lamp replacement.
- When replacing the lamp while the projector is ceiling-mounted, wear protective eyewear to prevent eye injury.
